## SOLARSHEAT MULTI-ROOM HEATING SYSTEM

### Product Description

Heat from one to eight individual rooms with a SolarSheat Multi-Room Heating Systems. Each system includes 1-8 SolarSheat 1500GS panels, an appropriately sized fan, controls, duct kit, side hole gaskets and detailed instructions. There are two configurations that are solar only using DC fans. They are the 1501DC and 1502DC. These configurations are powered by PV panels to separate them electrically from the rest of the home! SolarSheat Multi-Room Heating Systems are compatible with our Two Stage Zone Control System, to add further intelligence to the system. Collectors may be mounted on the roof or wall.
